## Launch of Twinning Project on Quality of Service and Smart Metering at GNERC

The third EU-funded Twinning Project on Service Quality and Smart Metering starts at the Georgian National Energy and Water Supply Regulatory Commission (GNERC). The conference dedicated to the launch of the Twinning Project - "Development of Incentive Based Regulation for Service Quality and Regulatory Strategy to Support Roll-out of Smart Metering" will be held at Tbilisi City Assembly on April 11, 2019 at 11:00.

The aim of the project worth of 1 200 00 EUR is to assist the GNERC in developing incentive-based regulation for service quality, as well as a regulatory strategy to support the roll-out of smart metering.

The representatives of the government, the delegation of the European Union to Georgia, GNERC, Austrian, French and Greek regulatory authorities, energy companies as well as international organizations will attend the event.
