

Presentation of EXAA

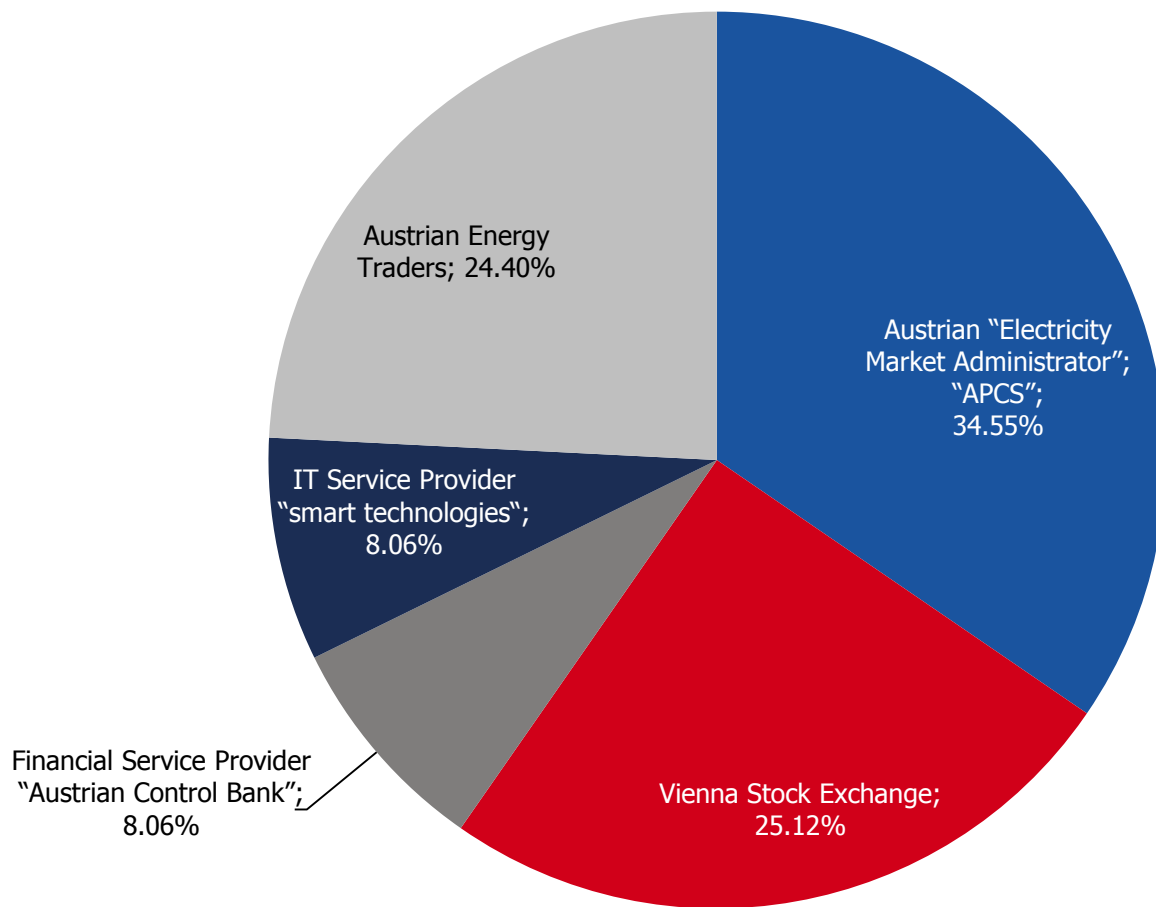

November 10th, 2015

- ▶ EXAA (Energy Exchange Austria) is a private stock corporation with headquarters in Vienna
 - Founded in 2001 after Market Liberalisation in Austria
 - Operation of the Day Ahead Spot Market initiated in 2002

- ▶ In Austria Energy Exchanges there is a need for concessions in commodity trading
 - Issued by the Federal Ministry for Economic Affairs based on Austrian Exchange Law
 - EXAA uses the concession of one of its major shareholders, Wiener Börse (Vienna Stock Exchange), for its activities

- ▶ Day Ahead Spot Market Electricity in the common Austrian and German Market Area
- ▶ TEEM (training for energy and environmental markets):
Organisation of regular training modules

- ▶ Operation of the Day Ahead Spot Market Electricity in Switzerland and Hungary
- ▶ Operation of a Market for Carbon Allowances
- ▶ Operation of the Auctions for Electricity Capacity Rights on the Austrian Borders
- ▶ Participation in Twinning Projects in Macedonia, Georgia and Croatia
- ▶ Participation in various projects in the European Union for the adaption of Market Design and the introduction of Market Coupling

- ▶ The Austrian energy exchange EXAA will organise customised training seminars for CREG. The experts of EXAA will provide their experience in energy market models, balancing mechanisms, management of cross-border capacities, price formation, exchange trading, capacity allocation methods and many other topics according to the needs of the BC experts

- ▶ Give a comprehensive overview of the Electricity System in the European Union
- ▶ Provide a background to the Algerian experts, on what their European colleagues are thinking
- ▶ Present the views of a regulated institution on the activities of the Regulators

**We hope to provide helpful
and interesting information
to the participants at our
sessions –
and that we learn a lot from
the experiences of the
Algerian experts**
